

With the fast paced world we live in today, it's hard to get the right vitamins, minerals and nutrition into our bodies on a daily basis.

Even when we purchase nutritional supplements to support our health we often forget to take them everyday. That's why we've created **Xooma Essentials™** – a complete spectrum of **essential** vitamins, minerals, antioxidants, fatty acids and enzymes all in easy to use (and remember) morning and evening packets! This complete 30 day nutritional support system is perfect for busy people who want to stay healthy while they're on the go. There are no bottle caps to unscrew or pills to sort. Just put a morning and evening packet in your pocket, brief case or purse and you're prepared for the day.

Along with a healthy diet, Xooma Essentials™ provide you with a simple, yet powerful and effective way to get those vital nutrients your body needs on a daily basis. Just grab a packet and go!

Xooma Essentials™ is a synergistic blend of vitamins & minerals, Omega-3 fatty acids, antioxidants and enzymes that provide a complete nutritional foundation for optimal health. With Xooma Essentials™ you have a simple and effective way to feel and perform your best. The end result is a healthier and happier version of YOU!

Don't forget that the absolute foundation for good health starts with proper hydration, trace minerals and pH balance in the body. To get the most out of the products found in Xooma Essentials™, *Xtreme X2O* needs to be a part of your daily health regimen. Using X2O in your water every day is an ideal way to maximize the health benefits you'll experience with Xooma Essentials.

XOOMA ESSENTIALS™

Providing a Complete Nutritional Foundation for Optimal Health

30 Morning Packets & 30 Evening Packets

The Xooma Essentials™ Convenience Pack

is a synergistic combination of the following nutraceutical formulations:

LifeSource™ is the foundation of the Xooma Essentials Pack, containing optimal daily levels of vitamins and minerals along with targeted longevity ingredients.

The Need – Vitamins and minerals are essential nutrients that are required for normal metabolism, growth and general well-being. A single deficiency of any vitamin or mineral can endanger the whole body. Today, many people suffer from poor health simply due to a lack of vitamins and minerals in their daily diet.

The Benefit – LifeSource is one of the few multivitamin/multimineral products that offers a complete and balanced combination of high quality nutrients that deliver real results. It also contains 4 powerful “longevity” ingredients that positively impact the biological aging of various cells and genes throughout the body.

MultiXymes™ is one of the most complete enzyme formulations in the market today that can help unlock the nutrients within our food that makes them more readily available to our body.

The Need – The majority of foods we eat today no longer contain enzymes. Foods that have been pasteurized, sterilized, radiated, irradiated, microwaved, treated with preservatives or cooked above 118° fahrenheit no longer contain live enzymes.

The Benefit – MultiXymes contains the enzymes necessary for optimal digestion. By consuming MultiXymes prior to a meal, your body will have the extra assistance it needs to promote healthy digestion as it helps minimize the internal discomfort caused by eating foods lacking in natural enzymes.

Omega 3000™ is a molecularly distilled, cold water fish oil formula, designed to provide optimal levels of the essential (and often deficient) Omega 3 fatty acids in our diet.

The Need – Supplementation with Omega 3 fatty acids has been shown to help with cardiovascular disorders, diminished immune function, chronic inflammatory disorders, poor vision, depression, behavioral problems, COPD, obesity, cancer and other health and wellness problems.

The Benefit – This proprietary Omega 3 fatty acid formula may help to optimize hormone communication while it supports cardiovascular and brain function. Omega 3000 provides EPA and DHA in optimal ratios which have been shown in research to protect the heart and blood vessels by increasing “good cholesterol,” reducing homocysteine levels, preventing arrhythmia and stabilizing heart rhythm.

BerryWize™ is a revolutionary multi-berry formula containing a synergistic blend of 12 of the most powerful antioxidant enhanced exotic fruit and berry extracts known to science.

The Need – Due to our “modern diet,” we are often deficient in these disease fighting compounds. According to the USDA, in order to give our cells the best antioxidant defenses, we should be consuming the equivalent antioxidant value (ORAC) of that found in approximately 10 servings of fruits and vegetables per day. Yet research suggests that most people barely consume half that value of antioxidants each day.

The Benefit – The numerous phytonutrients within the BerryWize formulation offer exceptionally high antioxidant characteristics with many potential health benefits. There is overwhelming evidence today on the ability of antioxidants to offer protection to virtually all parts of our body, including cellular proteins, membranes and mitochondria- the tiny “power plants” responsible for much of our energy.
