

THE POWER OF 1

If you were to help just 1 new person start their Xooma business each month, and taught them to do the same, take a look at how many people you would have in your organization after one year...

Month	Activity	Total
1	You enroll 1	1
2	You and your 1 each enroll 1	3
3	You and your 3 each enroll 1	7
4	You and your 7 each enroll 1	15
5	You and your 15 each enroll 1	31
6	You and your 31 each enroll 1	63
Pretty slow so far, isn't it? Now watch what happens...		
7	You and your 63 each enroll 1	127
8	You and your 127 each enroll 1	255
9	You and your 255 each enroll 1	511
10	You and your 511 each enroll 1	1023
11	You and your 1023 each enroll 1	2047
12	You and your 2047 each enroll 1	4095

And how many of those 4095 people did you personally sponsor? **Just 12!**

That's geometric progression and that's how this business is designed to work.

THE LESSON: Anyone can do this business. If everyone commits to enrolling just one person per month, you (and they) are less than one year away from total financial freedom!
