

# Team Matrix

## Infinity Bonus

Instead of being limited to just the commissions from the sales within your Matrix, you have the opportunity to get paid on some or potentially all of the sales volume below your 12th level in addition to earning extra percentages on your entire organization. This bonus could pay you as much as 20 or 30 levels deep and result in a substantial boost in your income as your matrix continues to grow.

Once your Xooma business has a total combined sales volume of \$10,000 or more between your Sponsorship Tree and Matrix (FQV + BQV) you qualify to earn Infinity Bonus commissions on top of your normal Matrix commissions. Another exciting part is that these Infinity Bonuses are cumulative (can be added together) as you increase your total sales volume. For example, if your total combined sales volume was \$100,000 (FQV + BQV) you could potentially earn **up to 11% more** (3% + 3% + 3% + 2%) on your entire organization.

## The “Spill Factor”

The Matrix compensation plan allows every Member a maximum of two positions on their first level. So, the first two people you sponsor into your Xooma business are positioned on the first level of your Matrix. However, when you sponsor more than 2 people, those new Members get “spilled over” into the next available positions in your Matrix. Not only does that help you grow your business, it can immediately help the people below you grow their business as they’ll also earn commissions from the sales volume below them in the Matrix.

So, every time someone sponsors more than two active people into Xooma it creates “spill over” in the Matrix and virtually everyone benefits. Plus, not only can you create spill over to help other Members on your team, you may actually see people spill over into your organization based on the efforts of those Members above you. Now, that’s true “teamwork” and real motivation to sponsor as many people as you can!

Imagine how quickly your Matrix can grow and how much “spill” can be created if every Member of your team simply focused on sponsoring 4 active Members and accomplishing the “\$400 Solution” with the Uni-Level Bonus. Again, your Matrix grows every time you sponsor new Members and they sponsor new Members.
