

Congratulations International Directors Linda Rogers Brown and Bodey Fox!

Two of Xooma's top leaders are moving up! Congratulations to **International Director Linda Rogers Brown** and **International Director Bodey Fox**. International Director is the third highest rank position in Xooma.

Here's more about **International Director Linda Rogers Brown's** success and the explosive growth she and her team are experiencing in 2016.

Linda has a pretty powerful personal testimony, and was recently featured in the March 2016 Pulse newsletter. She has also been experiencing tremendous success in her Xooma business.

What is she doing? With her focus in 2016 on leadership, Linda started looking for people who were ready to lead and embrace all that Xooma Worldwide has to offer. She is also reaching out to leaders who have a 'sphere of influence' with others.

Here are some examples. Based on Linda's success in her personal health, she recently met her former personal trainer and weight loss doctor. They were amazed at her success...without them! She is also reaching out to churches, schools and university audiences.

Whether it's helping her team members with recruiting or reaching their connections, Linda Rogers Brown

supports her team members in every sense of the word. Sometimes this includes accompanying them in meeting their spheres of influence and sharing her personal testimony.

Giving credit to her team, here are Linda's words of wisdom: "Whatever is holding you back from succeeding, go figure it out. Work with it so you can solve it. Then you are free to move forward!"

Alkalinity: The Untold Story

"Who would have thought that a little tea bag-like sachet filled with minerals could do so much?" It's a pretty common response after people begin drinking X20™ water and see positive results with their health.

From weight loss to thinking and feeling better to increased athletic ability (and decreased shortness of breath during workouts), Members have shared a variety of positive results after beginning X20. While some people might not feel immediate results from X20 – unlike 20 minutes after taking FocusUP® – the minerals in X20 are having a positive affect on the body.

What's happening? One word: alkalization. Research has shown that minerals help create a more alkaline state in the body. Having a more alkalized body means disease doesn't have an environment in which to thrive. A powerful quote from Dr. Arthur Guyton, author of the Textbook of Medical Physiology, perfectly illustrates this finding: "The cells of a healthy body are alkaline while the cells of a diseased body are acidic."

While you're starting to hear more about the 'alkaline' story in the media, the Xooma 'brand' launched in May 2005. And we've been telling the story ever since. Have you told yours? Visit mystory.xoomaworldwide.com.

Team Greatness is heating up North Carolina and the region!

2016 has seen the birth and growth of 'Team Greatness' as they call themselves, from all the activity building in North Carolina and neighboring states.

Cathy and Sherman Chavis joined Xooma on January 20th this year. They decided the evening before when Linda Rogers Brown shared her personal testimony. Cathy had already planned to host a Ministry meeting at her house. After just reconnecting with Linda Rogers Brown, Cathy invited Linda to share her powerful personal testimony that night.

Linda had known Cathy and Sherman for many years. In fact she had wanted to share Xooma with her *(continued on page 2)*

Team Greatness (continued from page 1)

for quite some time. By early 2016 however, Cathy and Sherman found themselves in the perfect position to move forward with Xooma. As they began ramping up mid-February, they advanced to the rank of Senior Managers by mid-April, just 60 days later.

Another important part of their family is their son, Jonathan Chavis. Jonathan works closely with them and their entire team. Not only that, Jonathan is another living testimony of Xooma: he has lost 68 pounds so far, thanks to Xooma's products including the MetaboWize™ System. Congratulations, Jonathan!

Cathy and Sherman aren't the only members of Team Greatness who have risen in rank position. One week after Cathy and Sherman joined Xooma Worldwide, Arlene Jacobs joined, one of Cathy's sisters. Arlene and Pastor Brian Jacobs also achieved the rank of Senior Manager in April.

Arlene has had some experience in the Direct Sales Industry. That experience, however, left her feeling like she couldn't sell. Xooma's products have helped her and so many others, Arlene adds that she doesn't feel like she's selling now, just sharing!

Arlene is sharing the products and her personal experience. She confesses that she is

amazed at her rapid success with Xooma. "I love the company, the leaders, and the products. And I thank God for Xooma!"

Like so many others, Arlene LOVES FocusUP. She takes FocusUP, along with X2O and the MetaboWize AM Xtra Formula. Her daughters also enjoy the products and sharing them with friends, especially FocusUP.

One daughter in 9th grade is seeing huge results from FocusUP. She was having problems with focus at school, and even asked to see the doctor and get medication. Arlene held off. Shortly after, Arlene discovered Xooma. Her daughter is getting such good grades in school now after using FocusUP, she was just inducted into the 'Beta Club'.

Success doesn't necessarily run in families. However, the hard work and consistent efforts – or just sharing Xooma – have paid off for 'Team Greatness.'

What's another wonderful benefit? How Xooma has brought this family closer together. As people and family members get busier, they might only visit on holidays. As a result of building their Xooma businesses, Arlene shares

that she and all her sisters are talking much more often – well, talking, texting, emailing and meeting!

Where to go from here? Cathy and Sherman share that their combined growth has come from others who can see the vision and share it. They believe strongly that the future is truly unlimited and will continue to bring upward growth. Sherman shares, "With the momentum that's building, there is no going back."

Congratulations to Cathy, Sherman, Jonathan, Arlene, Pastor Brian – and all of Team Greatness – for your enormous success and help in "Changing the Health of a Generation!"

International Directors (Continued from page 1)

International Director Bodey Fox has been working hard 'hitting the road' and sees that continuing through 2016. Bodey shares that although technology is helpful, there is no substitute for the personalization and energy generated from meeting with people in person.

Bodey is excited about sharing the Gift Card Marketing Program that launched in August 2015. He's even more excited about the consolidated and unified effort in moving forward, which is helping all of its Members be more successful.

"If our teams win, we win," shares Bodey. "The foundation is now in place." While Bodey says he has been on the road the last few months, he can't take credit for his rise in rank.

With all the tools now available, and the targeted approach and duplication that the Gift Card Marketing Program offers, Bodey shares he is more excited about what Xooma has to offer today than ever. And everyone will be more successful because of it.

Congratulations to International Directors Linda Rogers Brown and Bodey Fox – and for all the people you are helping by sharing Xooma Worldwide!
