

A breakthrough discovery for cardiovascular health and inflammation control

KardiaXyme™ (KX) has been one of Xooma's best-selling supplements since it was first introduced.

This exclusive formula contains a potent and unique blend of land-based and sea-based, highly bioactive polyphenols that optimize cellular, cardiovascular and metabolic health to support lifelong physical and mental wellness.

Supported by millions of dollars in extensive research and studies, the ingredients in KardiaXyme deliver noticeable health benefits throughout the entire body.

After being given an upgrade with the addition of TWO powerful patented, trademarked ingredients – **Capros®** and **Senactiv®**, members continue to rave about the benefits they are experiencing. Oftentimes, members placing their orders with our Customer Service Representatives share their amazing stories with us. Others go directly to our testimonials site (https://mystory.xoomaworldwide.com) and use the interactive features to send us their success story.

Quick Overview

Supplement Facts
Serving Size: 2 Capsules
Serving Per Container: 30

	Amount Per Serving	% Daily Value

*Daily value not established

Other ingredients: Hypromellose, vegetable magnesium stearate and silica
CAPROS® is a registered trademark of Natreon, Inc.
Senactiv® is a registered trademark of NuLiv Science USA Inc .

Key Benefits of KardiaXyme

Antioxidant:

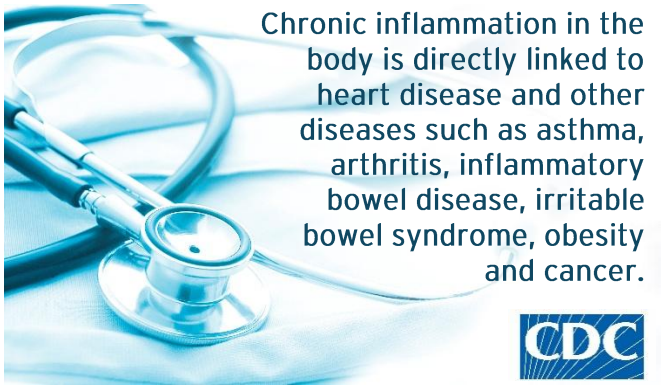

KardiaXyme removes free radicals and toxins with a powerful, unique marine polyphenol complex. In addition, the nutrients in this formula possesses an ideal balance of polarity by including a broad range of molecules with hydrophilic (water-soluble) and lipophilic (oil soluble) chemistry.

Cardiovascular:

KardiaXyme helps maintain normal cholesterol levels, promotes vasodilation and increases elasticity of vascular lining; reduces and prevents plaque buildup through inhibiting LDL oxidation; and improves blood condition for optimal flow. In human clinical trials the ingredients found in KardiaXyme resulted in reduction in LDL ("bad" cholesterol), increase in HDL ("good" cholesterol), and reduction in triglyceride levels.

Inflammation:

KardiaXyme minimizes and reverses the debilitating effects of chronic neurological discomfort; enhances cellular function in muscle and organ tissues to prevent inflammatory reactions to cellular stress; and suppresses and prevents the degradation of cartilage in joints, while increasing lubrication and cushioning.

Chronic inflammation in the body is directly linked to heart disease and other diseases such as asthma, arthritis, inflammatory bowel disease, irritable bowel syndrome, obesity and cancer.

CDC

Added Benefit of Xooma's exclusive marine mineral complex X2O

With over 70 naturally occurring trace minerals and the pH balancing support (alkalinity) X2O provides to the human body, our researchers discovered a synergistic relationship between our exclusive sea-based mineral complex and the unique land and sea-based polyphenol complex contained in the KardiaXyme formula.

Capros

Capros® is a US patented superfruit extract of *Phyllanthus emblica* – Amla.

- 10 human clinical trials
- Certified organic & vegan
- 6 published clinical papers

Benefits:

- Supports endothelial function
- Supports healthy cholesterol levels
- Supports cardiovascular health
- Supports healthy platelet aggregation
- Supports a healthy immune response
- Helps protect the body against oxidative stress
- Helps maintain cellular integrity

SENACTIV

Senactiv® is a plant-based, scientifically validated, US patented nutraceutical compound.

- 6 human clinical trials
- 2 in vivo studies
- 4 published clinical papers

Benefits:

- Supports normal blood pressure
- Helps reduce fat accumulation in blood vessels
- Supports blood vessel health and healthy blood flow
- Reduces inflammation
- Increases SOD antioxidants
- Helps protect telomeres and DNA Helps maintain cellular integrity

KardiaXyme is also offered as an **Add On Value Pack** with introductory package purchases and is available as a **Loyalty Reward** selection for qualified Members.

DISCOVER YOUR PERSONAL RESULTS

Before taking KardiaXyme, do an honest evaluation of your current health. Ask yourself some good health questions and rate yourself on a scale of 1-10 with "10" being the best score – meaning that you feel great in that area of your health and "1" being the worst score for that area of your health. Here are some *suggestions*:

→ Do I experience pain on a regular basis? If so, where is that pain?
→ What is my overall energy level like each day?
→ Do I get deep and restful sleep each night?
→ What is my current weight and/or body fat percentage?

Then, your goal is to re-visit this original list of questions/observations after using KardiaXyme (as directed) for **90 days**. Go through and rate yourself again on a scale of 1-10 to discover all the positive health benefits KardiaXyme has made in your body.
