

# AT THE PULSE!

Xooma Worldwide  
March 2016

## Another Xooma Member's powerful health transformation: Linda Rogers Brown

If you've been with Xooma Worldwide for any length of time, chances are you've heard about **National Director Linda Rogers Brown**.

As one of Xooma's top leaders, Linda is full of passion for Xooma and its outstanding business opportunity. She is also fueled by her passion for health, for herself personally, and for family members and friends.

It began with Linda's own health journey when she was diagnosed with cancer, four and a half years ago. Two days before going into surgery, she spoke with Senior Director Denson Taylor and National Director Diane Chapman. Denson immediately put products in the mail to her. However, after returning home with 200 stitches, not being able to move, and in excruciating pain, it would take her 3 weeks before she got started.

Since Linda couldn't move, much less cook, her family brought her meals consisting of fast food. It took her 3 weeks before she suddenly remembered the alkaline water (X2O) and asked her husband, Emilio, to get it out of the package and make it for her. Linda shares that she felt it immediately hit her cells, feeling refreshed and wanting more. Over the next 2 days, all she drank was X2O...around the clock.

"After 2 days of drinking X2O water, I was off all the pain medication I had been taking. I also found myself in the bathroom one morning and realized I had walked there on my own. For 3 weeks after the surgery, I could not get up out of the recliner where I spent my days and nights, without help."

What did she do next? Linda immediately got on the phone and began calling people she knew and sharing what had happened. While she could barely move and hadn't left the house, her Xooma business was launched. What's more, Linda's group grew to 600 people in Xooma before she could even leave her house, just from sharing her personal testimony.

Next, Duke University called to run tests before scheduling her chemotherapy following surgery. That's when Linda decided to begin an entire regimen of Xooma's products. They included Ellagic Acid, Berry Balance, Kardiasyme, FocusUP, Assimilator, and continuing on the X2O.

The great news is when she went to Duke University to have the tests done, they found NO cancer!

Hearing there was no more cancer *(Continued on page 2)*

## Recognition for outstanding awards to Xooma Leaders!

More Xooma Members were recognized at Xooma's **New Year New You** event at our Hampton, VA global headquarters in January 2016!

Congratulations Senior Director Denson Taylor!  
Congratulations International Manager Curtis Benn!  
And Congratulations to National Manager Timothy Duff!

At the January 15, 2016 Dinner Banquet and Awards Ceremony, they all received 'giant' checks, recognizing significant income to date. One of the largest checks yet, pictured above, is Denson Taylor with his \$900,000 check. Ron Howell, CEO and President, is pictured to Denson's left, and Chief Operating Officer, Zack Howell, is pictured to his right.

Congratulations on sharing Xooma, worldwide...it is obviously paying off!

## More research supports Xooma's products...with Dr. Paul Harris

One of Xooma's more recent Members is **National Manager Dr. Paul Harris**. While he and his wife, Connie Harris, have been building a strong Xooma business, he brings an extensive medical background, 42 years to be precise.

Dr. Harris was recently featured on Xooma TV, with the program's weekly hosts, National Director Bodey Fox and Senior Manager Darryl Cooper. Now you can see his presentation on the benefits and science behind several Xooma products, located in your back office. You can also access the video through YouTube, Facebook and Xooma's Mobile App. *(continued on page 2)*

## Getting heart healthy in February!

February is National Heart Month. With heart disease as the leading cause of death among men and women in the United States, this month is about increasing awareness and sharing prevention.

Heart Disease includes a number of health challenges, including heart attacks, strokes, congestive heart failure, high blood pressure, and hypertension, to name a few.

Here's the good news. Several of Xooma's products have helped Members around the globe with these cardiovascular-related health challenges. Our Members share ongoing testimonies about how their health has improved and how some Members have been able to reduce the number of prescription medications they take.

**X20™** is Xooma's foundational product and one that works synergistically within the body at the cellular level. It has 3 main functions: alkalizing, mineralizing and hydrating.

Inflammation has also been connected to several diseases and health challenges. Cardiac issues are no exception.

**KardiaXyme™** is another product in Xooma's exclusive product line that Members have shared numerous benefits from using. While it can reduce inflammation, especially important with our heart, Members have also experienced increased 'good' cholesterol, and decreased 'bad' cholesterol.

Get heart-healthy all year long, with Xooma!

## How could Cash Back Bonuses get better?

While you're working hard to build your Xooma business, we are also working to support your physical and financial well-being.

Here's just one way. Your commission checks now reflect your Cash Back bonuses in only ONE week instead of two. When you sponsor a new Cash Back Member to your team,

your Cash Back Bonus will be processed the very next week.

Visit Xooma's website and view the Prosperity Plan (PDF), including the recently updated Cash Back Bonuses section. It's just one of eight ways you can earn income with Xooma Worldwide!

## Linda Rogers Brown's Transformation (continuation)

was fantastic. However, following surgery, Linda had gained 60 pounds.

After finally getting in to see Duke's top weight loss doctor and following their recommendations, Linda was able to lose 40 pounds, going from 263 to 223 pounds. Then she hit a plateau.

Xooma to the rescue! Linda continued with her new diet regimen, but she incorporated Xooma's MetaboWise System. In addition to the MW Protein Fiber shakes, she added the AM Xtra Formula and cut her carbohydrate intake 6 days a week...and enjoyed the 7th day! Not only did she break through the 223-pound barrier, by using the MetaboWise System and Xooma's other products, Linda no longer craved unhealthy foods that she used to.

"If I didn't get onto Xooma's products, I wouldn't be living the life I'm living right now, physically and financially. After surgery, I couldn't work. I feel very blessed, along with Emilio and my entire family. Every single member of my family has benefited from Xooma's products."

Not only that, Linda shares that the products have given her hope that her children and grandchildren will not have to experience illness like she has. And by just sharing her story, through Xooma's 'referral program', Linda is building financial security along with better health.

January 1, 2016 was the first time that losing weight was NOT on her list of annual New Year's Intentions (Resolutions)! Linda openly shares that she is now 57 years old, yet she feels 30. Congratulations, Linda, 4½ years cancer-free and 91 pounds lighter!

## Dr. Paul Harris (continuation)

Dr. Harris brings 42 years of diverse professional experience in the field of integrative medicine. He is licensed as a Doctor of Pastoral Science and Medicine by the PMA. Dr. Harris also holds a Doctor of Naturopathy degree, certifications as a QRA practitioner,

Natural Health Care Practitioner, and is a certified personal trainer.

A big 'Thank You' to Dr. Paul Harris for sharing your expertise and how science continues to support Xooma's cutting-edge line of products!
