

XOOMA™ HEALTH BEAT YOUR HEALTH. YOUR CHOICE.

Dr. Triglia's "T" Party and YOUR Path to Health and Wealth

Hi Xooma Family! I pray all is well and as always, great to be able to share more about your health and something I'm calling 'Dr. T's "T" Party' with you, your friends and family.

So what's this about a "T" party and how does it relate to Xooma's awesome products? Let's begin by explaining the "T" party, especially since so many new people are joining Xooma these days.

The Making of a Free World

First, let's go back to the beginning of this great country known as the United States. Are we even able to remember our history or conceive what it was like crossing that huge Atlantic Ocean? I mean imagine around 125 of us getting on what was called a 'boat' back then. No GPS, severe storms, sickness, NO BATHROOM FACILITIES! You know what I'm saying! And other worse conditions when enduring long trips on the water...

Artwork by Montague Dawson

Then arriving here in a cold climate, there was no light on at the 'Motel Six' for a hot shower and food. These people had to live on this ship, not counting all who died to this point! That, of course, was just the beginning of their problems. But that story, my friends, is for another day.

So, let's fast forward through all the many tragedies those brave people went through and some died for. Remember, England still wanted to control the new America, until our founders decided they had had enough. Two of the biggest problems were "*We, the ruling class, are smarter than you people of the country, so we need control.*" Next, "*To do so, we need to continue to raise taxes.*" Sound familiar?

We know how it turned out, but do you think there may have been a few people who were afraid or deeply concerned about their future? Maybe some people who said, "*Why fight it, we have no choice?*" Or others who said, "*This is my lot in life to never live better or really have anything?*" As a matter of fact, there is a book out which I agree with that says "poverty is not our problem...MEDIOCRITY is the true killer"!

Who Defines Societal Norms

Here's one example. Who got to decide what 'middle age' is? Do you know that if you agree 40 years young is middle age, then you give yourself no choice but to die at 80! So the question is, are you up for the challenge of proving 'them' wrong?

You might be asking, how do we do this? How do 'we', average folks, get to help make this change? *Back to history.*

Remember from your history books all the tea that was dumped into the Boston Harbor? It wasn't about the tea, but rather the statement it stood for! Remember Paul Revere? It wasn't about his shout if there were no one to shout to. Yes, he got the word out to people *who believed there was a better way of life.* What's more, they didn't just believe it, they stood up and took action.

Today, there are many more hoops we have jumped through, but we have to realize all those very important little steps by us 'little people'. Those people ended up delivering in the shortest amount of time the greatest nation the world has ever known! Yes that is US and the U.S.!

A Better Way with Xooma

What does that have to do with me, you and Xooma? In a word EVERYTHING!

Every person in this company, young, old, rich, poor, black, white or alien has an equal opportunity to become unequal in Health, Wealth or both! Our great leadership team has done the heavy lifting by investing millions of dollars in infrastructure, product development, advanced computer systems and online business builder systems. People who have left their original homes to move to Hampton, Virginia; some who gave up great jobs or other opportunities with no guarantee, to enjoy what they do - *changing the health of a generation.* Were there upsets along the way? Did things always go smoothly? Of course there were. But they had a vision, passion and a plan. And now, we are unveiling products that can truly change the way the world views getting well without the use of drugs or surgery.

Better Health with Xooma's Products

I have been a proud Member of Xooma's Scientific Advisory Board for approximately 8 years. And those of you who know me know I am a champion for our #1 selling product - **X20!** The latest things I have seen developing in Xooma lend even more credibility to the company, especially considering X20 as our foundational product.

There are so many positive attributes of X20 which begins with water. X20 is a great foundation because water is the foundation of all life. Every living being and every living thing needs water to survive. And thanks to Xooma, we know that not all water is created equal.

Back to the founding of our glorious country, it was also before the Industrialization Era. While today we are blessed with many modern conveniences and advanced technologies, our water sources aren't what they used to be, even bottled water is far less 'healthy' than most people would believe. That's where these little sachets – or "power packs" as I call them – come into play.

X20 has over 70+ trace minerals, 100% natural and harvested directly from below the sea. While our bodies don't produce minerals, they absolutely need minerals for proper mental and bodily functioning. We also know our soil is greatly depleted, with a 1992 article stating that our soil was already 85% mineral depleted... and that was over 20 years ago.

What do these minerals do? We know they mineralize, revitalize and alkalize our bodies. And with an alkaline environment, our bodies are more healthy and resilient. What's more, X2O transforms the molecular structure of water, allowing the water to rapidly enter your system and provide greater hydration.

Bringing this back to the opportunity, our history was built upon the foundational principle that we are all created equal. With Xooma, I say every person on the planet has an equal opportunity to become unequal in Health and Wealth! While X2O is the foundation for your health, it is also the vehicle for greater wealth.

While you can use X2O as the foundation of spreading awareness for greater health – and wealth – you can have a couple other Xooma products at the ready to share with others.

LifeSource is also a key staple for a healthy body. Along with minerals, getting the proper levels of vitamins in our diets just isn't possible through the average diet most people consume these days. And we also know from dietary supplement research, we can take in far more than the recommended daily dosage of some vitamins... if we want to have optimal health.

Nature's Body Cleanse is another important part of keeping your complete digestive system in good working order. Overlooked by many in the marketplace is the importance of proper and regular elimination. With all the supplements on the market, you don't often hear about a product like Nature's Body Cleanse. Thanks to Xooma, it's available and affordable... to keep your system in optimal working order!

So as Dr. T says, set your attitude by your altitude! And carry that into hosting your own "T" Party...

Xooma Products can fuel YOUR "T" Party

Now that we have looked at how we can literally help fuel our body – and looked at the roots of what fueled the creation of our great country – let's start our own revolution! That's why I created the "T" party.

Here is how I see it working:

- 1) Create a Xooma post two weeks prior to when I, Dr. T, will do a presentation as part of Xooma's Thursday night Health & Wellness conference call series.
- 2) Find 10 people who want to increase their income.
- 3) Find 10 people who want to look better, feel better and live (not exist) longer in the shortest amount of time.
- 4) Hand them a card, send them an email, or invite them on Facebook with the date and time they should show up at your house.
- 5) Hand them an X2O sachet with a bottle of water when they arrive and tell them to prepare for a health and wealth revolution.
- 6) If you do not have a speakerphone, have each person bring their cell phone as they listen to me talk about all the amazing benefits of Xooma's X2O...the 'tea bag' you gave them at the beginning of the meeting.
- 7) After my call, take a few minutes to answer questions, take orders and get people started.

Crazy idea? Maybe. Do you have as much to lose as all those great people who came to this country to start it? The good news is this is so simple, virtually anyone can do it.

Think about it this way: a phone call and a 'tea bag' (X2O sachet) could change your physical and financial future. On the other hand, you can stay home and make excuses as to why you can't transform your health and your financial future. Remember, if you want to fly with the eagles you have to stay away from the buzzards!

As always, God has all the power but has given you all the authority. I believe in you and the opportunity that Xooma provides for greater health and wealth. You have everything you need to create a prosperous future. So the most important question is, are you ready to make it happen?

Yours in health,
Dr. Michael A. Triglia
A.A.S., B.S., D.C.

Dr. Triglia has been in private practice for over 25 years. As an entrepreneur he knows the value of diversification. As a Doctor of Chiropractic for over 25 years he has also been involved for that long or longer in the health and wellness and motivation industry. As a Christian he attempts to look at all areas of life through the lens of the word of God. Dr. "T" states that is the most important center piece of his life that keeps him highly motivated to do his very best daily.

Dr. Triglia is President/Founder/CEO of Peninsula Chiropractic Center, ISOROBIC Life Improvement Center, Fitness Motivation Institute of America, Bushin Kai Martial Arts Academy, where he holds a sixth degree black belt as well as black belts in four other martial arts.
