## Have a **blast** this Summer!

With spring here and the summer season upon us, this is the perfect time of year to experience the many ways you can enjoy Xooma Blast.

Members across the globe LOVE Xooma Blast. Not only do the flavors taste fantastic, but the special nutrients we use also make it a powerful, extremely healthy, guilt-free beverage. Choose from 3 mouth-watering flavors: **Strawberry/Dragon Fruit-Lemonade**, **Grape Xcape** or **Limeonade**.

While mixing Blast with a bottle of cold water is the most common way to enjoy it, there are many other fun ways to enjoy this delicious product.

**Blast slushie:** Grab a blender, add 12-18 ounces of water, ice and a packet of Blast. Blend until ice reaches slushie consistency and enjoy.

**Blast cubes:** Plain ice cubes are boring. Add some fun by mixing up a bottle of Blast with some purified water, then pour the liquid into an ice tray, place into the freezer and enjoy a small 'blast' of flavor in your next bottle of X2O.

**Blast popsicles:** Purchase a popsicle mold. Mix Blast in your desired amount of water based on the flavor strength you want and pour into molds. Freeze overnight and enjoy the best tasting, healthiest popsicles you've ever had.

**Blast 'Jello':** Instead of the typical gelatin dessert filled with sugar, artificial flavors & colors, you can use Blast to create a delicious, healthy, guilt-free gelatin treat. Simply pick up some plain, unflavored gelatin from your favorite store. Determine how much you plan to make, add the appropriate amount of water needed, and then add Blast packets into the water based on your desired flavor strength.

**Blast enhanced smoothies:** If you're a fan of making fruit smoothies or protein smoothies or green drink concoctions, you can easily add a new flavor twist (with great additional health benefits) by simply pouring in some (or all) of the powder from a Blast stick into your blender.

**Blast tea:** Iced tea is a popular summertime beverage. Instead of adding sugar or an artificial sweetener to that tea, try adding some Blast powder to satisfy that craving for sweetness as well as provide a fun flavor addition.

Each stick of Blast can easily flavor 20-40 ounces of water (depending on your preferred flavor strength) and with your Member discount pricing, each stick of Blast is **just \$1.93**. That's an amazing value for all the health benefits packed into this great-tasting, guilt-free beverage.

**Got Xooma Blast in your home?** If not, place your order today for 1, 2 or all 3 of our exclusive flavors!

## Your Xooma bottle needs a 'Buddy'

If you're like most Members, you carry your Xooma bottle with you everywhere.

And why not?

Its eye-catching **color** and transparent **design** draws people's attention to that 'mysterious' sachet floating inside.

In fact, Members tell us it's one of the easiest ways to introduce someone to X2O and Xooma because so many people ask about their bottle and the sachet inside when they see it.

### Introducing Xooma's new Bottle Buddy...

With your Bottle Buddy, you can carry extra X2O sachets with you everywhere – conveniently attached to your bottle.

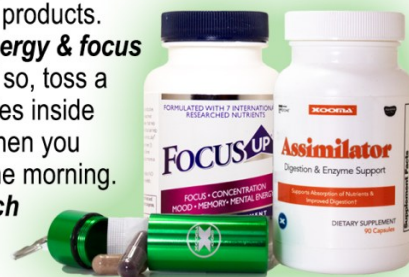

This small stainless-steel container attaches easily to the standard ring on your Xooma bottle and is large enough to hold multiple sachets. Now you'll always have enough X2O on hand for your personal use, PLUS you'll have an extra sachet or two to share with a family member or friend.

Beyond X2O sachets, your Bottle Buddy is **big enough** to also hold several capsules of your favorite Xooma products.

**Need some extra energy & focus in the afternoon?** If so, toss a few FocusUP capsules inside your Bottle Buddy when you leave the house in the morning.

**Heading out to lunch or dinner?** Put a couple Assimilator

capsules in your Bottle Buddy before you leave so that you can enjoy that meal without digestive distress. You get the idea.

You can add this fun 'accessory' to your Xooma bottle for just \$4.99.

Available in either **BLACK** (Item #5525) or **GREEN** (Item #5520).

## You've got **nothing** to lose - except the **FAT**

Warmer weather means less clothing and less opportunities to hide that unwanted body fat you see every time you look in the mirror. But the concern goes beyond the way you look or how tight your clothes are.

The real concern is how many serious health problems are linked to that excess body fat. Problems like cardiovascular disease, type 2 diabetes, metabolic syndrome, osteoarthritis, fatty liver disease, and certain cancers (endometrial, breast and colon). These conditions cause premature death and substantial disability. Even if

you're comfortable with the way you look, shedding some of that excess body fat will go a long way in supporting your overall health and well-being.

Fortunately, the **all-new MetaboWise AM Formula** is designed to help you melt away that excess weight by harnessing the power of specific nutrients that fire up your metabolism and unlock your body's fat-burning potential. Having less body fat not only makes you healthier, but you'll also probably love the improvements in the way you look as well.

So, to help you make this decision as easy as possible, we're going to 'BRIBE' you to try our New MetaboWise AM formula by **reducing** the discounted Member price by **over 50%**.

Simply **place an order for at least \$50** of any Xooma products, anytime **this month** and we'll let you have a full 60-capsule bottle of MetaboWise AM for **just \$15.97!** (Must order **Item #1186** for discount) \*

### Here's WHY we're doing this...

We're so convinced that the MetaboWise AM Formula will deliver results that we're making you this irresistible, low-price offer. Quite honestly, our hope is that you'll consider using the extra savings to also invest in a bottle of the PM Formula... or maybe take advantage the entire MetaboWise System for maximum results.

**Bottom line is this:** Xooma has the proven tools to help you successfully eliminate that excess weight and body fat. If you're looking for a place to START, two capsules of the new AM Formula each day is a significant first step to making the changes you want to see.
