Is Your Body Acidic?

The foundation of healthy pH balance is drinking plenty of alkaline water. The easiest way to "supercharge" the alkalinity of your water is by drinking X2O every day!

Unfortunately, most of the foods and beverages we consume on a daily basis cause our bodies to become acidic. And the more acidic we are, the more likely we are to store fat and experience poor health. But, with just one sachet of X2O, you can transform your water into a highly alkaline beverage that helps to neutralize acid in your body and trigger the release of excess fat and improve your overall health.

"You can trace every sickness, every disease and every ailment to a mineral deficiency."

– Dr. Linus Pauling
Two-time Nobel Prize Winner

"The cells of a healthy body are alkaline while the cells of a diseased body are acidic."

– Dr. Arthur Guyton
Author of "Textbook of Medical Physiology"

Essential Nutrition Starts Here

LifeSource™ (120 capsules)

Your body has a long list of essential nutrients it needs on a daily basis to achieve & maintain good health and keep everything functioning inside your body like it should. But, in today's modern world it is more difficult than ever (*some say it's virtually impossible*) to get all the key nutrients your body needs from just your diet alone. So, unless you're eating nothing but organic fruits and veggies and 'clean' meats each day, there's a good chance your body is missing (or deficient in) many of the critical vitamins and minerals it needs for peak performance. And that's why you need the LifeSource multivitamin/multimineral formula.

For starters, our synergistic formula contains **optimal daily intakes** or ODI's of vitamins and minerals. LifeSource also has the benefit of additional research revealing proven nutrients that positively impact the biological aging of various cells and genes throughout the body. Higher quality ingredients in optimal dosage amounts leads to better absorption by the body, increased health benefits, and a far better VALUE for your money.

- Whole-food based formula
- Specially chosen vitamin and mineral sources to ensure maximum bioavailability
- Contains an exclusive Organic Fruits, Veggies & Greens blend
- Includes Oxynea® - clinically researched Polyphenol Concentrates blend that provides same antioxidative protection as 2 servings of fresh fruit and vegetables
- Contains an exclusive Adaptogen Blend which includes 7 hand selected organic mushroom extracts

Ingredient Sources Matter

That's why we list the sources of every nutrient in this formula. Here's a few examples of how the new LifeSource formula is different:

- We use methylcobalamin which is a natural form of vitamin B12 and is more bioavailable than cyanocobalamin, a synthetic form of B12.
- Magnesium bisglycinate is used for its superior absorption potential rather than the more common and poorly absorbed magnesium oxide.
- Includes L-5-MTHF which is a form of folate and is the only form that can cross the blood-brain barrier to carry out important brain functions (nearly half of the population has difficulty converting folic acid to this bioactive form).
- Our Chromium is in the form of *polynicotinate* (instead of picolinate) for superior absorption and performance.

Forget about those mass-marketed multivitamins at your local stores that attempt to look like a 'bargain'. Instead, use LifeSource and experience the difference a true high-quality supplement can deliver to your body.

FACT: The most expensive multivitamin you'll ever take is the one that doesn't work.

One-of-a-kind Formulas That Offer Amazing Value

Assimilator™ (90 capsules)

Assimilator is a potent combination of natural plant enzymes in a proprietary formulation with essential trace minerals. For most of us, enzymes are the 'missing ingredient' in our daily diet. Most of our modern-day food supply is devoid of the natural enzymes necessary for optimal digestion. This powerful supplement helps break down the foods you eat and unlock the nutrients to make them more readily available to your body. Assimilator includes specialized enzyme blends for digesting protein, carbohydrates, fat, and fiber. This formula can also help relieve occasional gas, bloating, and gastrointestinal discomfort while supporting healthy weight loss. Just a capsule or two before a meal (especially 'large' meals) can make a significant difference in the way you feel each day. Discover for yourself why it's one of Xooma's best-selling supplements.

Berry Balance™ (60 capsules)

Berry Balance is a powerful and unique multi-berry extract with several patented and trademarked ingredient complexes. In vivo and in vitro studies have shown that berries, rich in anthocyanins, possess many biological functions that deliver potent health benefits such as: antioxidant activity, cardiovascular protection, enhanced brain function and mental clarity, anti-aging properties, urinary tract health, healthy vision and skin care. And when it comes to blood sugar support, this one-of-a-kind formula can deliver significant results. Noticeable Results with Very First Bottle!

Joint Health™ (90 caplets)

Over 10 years of clinical research and use have demonstrated that OptiMSM®, CMO (cerasomal-cis-9-cetylmystoleate) and Glucosamine are proven to protect and support joints, tendons, ligaments, cartilage, muscles, connective tissues and bones, and aid in post injury joint repair. This synergistic formula contains the clinical dosage levels of these research proven ingredients and is ideal for anyone experiencing age or exercise induced joint damage. Most people report noticeable results with their very first bottle!

Ellagic Acid™ (150 capsules)

Ellagic Acid nutrients differ from those derived from other sources, such as pomegranates and walnuts. Repair and restore your gut

Over the past decade, considerable evidence from both animal and human studies has shown a clear link between the imbalance of the gut microbiome and chronic diseases, including inflammatory autoimmune disorders, gut inflammation-related disorders, and cardiometabolic diseases. Sadly, our modern-day food supply contains far too many artificial or chemically altered ingredients that can damage the healthy balance required in our gut for optimal health. Hormone and antibiotic treated meats, genetically modified organisms (GMOs), pesticides and plant altering chemicals like glyphosate in modern farming are all contributing to major disruptions in our microbiome and creating chaos in our gut.
