*Percent Daily Values are based on a 2,000-calorie diet.

†Daily value not established.

Other ingredients: Natural flavors, rebaudioside A, and bamboo stem and leaf extract.

Quick Overview

Xiome365: A simple and enjoyable way to improve gut health and protect your microbiome.

“Over the past decade, considerable evidence from both animal and human studies has been accumulated showing a clear link between the imbalance of the gut microbiome and chronic diseases, including inflammatory autoimmune disorders, gut inflammation-related disorders, and cardiometabolic diseases.” – NIH/ PubMed

How to use & enjoy Xiome365

- Add powder to 8-12 ounces of cold, purified water for best taste. (Avoid using tap water if possible)
- Combine with X2O water to help amplify the health benefits.
- Can be added to a healthy smoothie or MetaboWize protein shake for gut health support.
- For optimal gut health benefits, consume Xiome365 in the morning or midday and then take a Xooma Probiotix capsule in the evening with a meal or before bed.

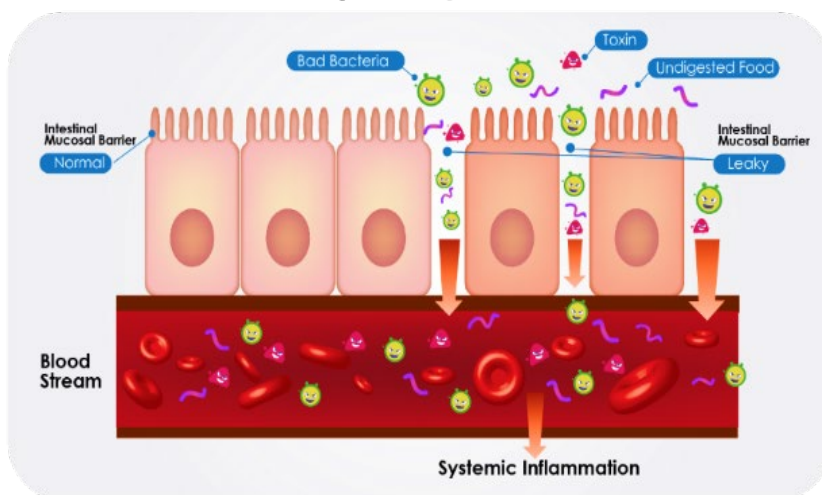

WHY a gut health beverage?

- This category is on track to become one of the fastest growing segments of the functional beverage industry.
- Many of the gut health beverages in today's market don't taste very good. *Ever try Kombucha?*
- Dairy-free and NO added sugar
- Xiome365 gut health beverage powder is easy to carry and convenient to use – *just add water.*
- Tastes so good you'll want to drink it daily.

Ever heard of Akkermansia Muciniphila?

First identified in 2004, **Akkermansia muciniphila** is a species of gut bacteria that helps to strengthen your gut lining, support microbiome health, and protect from disease. **A. muciniphila** produces propionate and acetate, two short-chain fatty acids (SCFAs), as a byproduct of feeding on mucin. The SCFAs feed other beneficial gut bacteria to make butyrate

Leaky Gut Syndrome

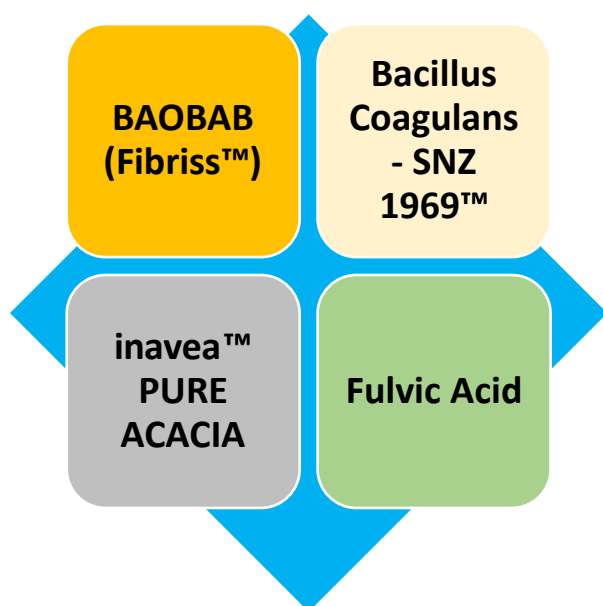

(another SCFA) which is a vital energy source for cells. These SCFAs strengthen tight junctions **holding intestinal cells** together and prevent unwanted materials from passing through.

How do we increase our Akkermansia Muciniphila levels?

Studies show that Akkermansia can be increased by consuming high-quality prebiotics like those found in Xiome365. The nutrients produced when the prebiotic fiber is broken down keeps our friendly gut bacteria nourished which leads to an increase in Akkermansia that will thicken and strengthen the gut lining. Consuming fruits and vegetables that are rich in polyphenols (*found in Xiome365*) is also critical to microbiome support. Not only are polyphenols great antioxidants, but these micronutrients also increase the abundance of Akkermansia in your gut.

Key Nutrients & Fast Facts

Fibriss™ Baobab Fruit Powder is 100% natural, organic and contains no preservatives or additives. It is exceptionally nutrient-dense, with one of the highest antioxidant profiles of any fruit on the planet. It is a rich source of vitamin C, packed with calcium, iron, magnesium and potassium.

SNZ 1969™ has FDA and Infant GRAS, over 40 years of safe & effective use, full strain traceability, exceptional research history and genetic pedigree.

Fulvic acid is a component of humus. Humus is made of many organic compounds (minerals) found in the Earth's soils, rock sediments and bodies of water. Many health experts consider it to be the ultimate "nutrient booster."

Inavea™ PURE ACACIA is an all-natural, organic and GMO-free prebiotic ingredient sourced from carefully selected acacia trees. In clinical studies, demonstrated an increase of microbiota diversity and to help restore the gut barrier.

- Prebiotic & probiotic formula
- Made with all organic ingredients
- Contains 3 branded & clinically researched super nutrients

- No artificial flavors, colors or preservatives
- No added sugar - just 20 calories per serving

To order Xiome365:

Item# 5000 Xiome365 Jar (20 servings)

Retail price: \$64.95

Member price: \$49.99
